Located in the heart of a Bangkok high-end zone is the Oakwood Residence Sukhumvit Thonglor, an eight-floor fully serviced residence that combines the luxury of a hotel and the comfort of a serviced apartment. Under the Oakwood Group, which runs more than 30,000 other similar residences worldwide, this 67-apartment residence opened in May 2009, and suits both short- and long-term living at reasonable prices.

Oakwood Residence Sukhumvit Thonglor may fulfil the needs of people from various walks of life, ranging from business people to families. Guests here will find it easy to travel around the city with various modes of transportation at hand, especially the BTS skytrain. Also, guests will enjoy doing a lot of different things since this area of Sukhumvit is full of city vibe, offering fine restaurants, shopping malls and entertainment facilities. Besides, the residence is not far from (at least two) public parks.

ROOM NUMBER **907**

ATMOSPHERE

The atmosphere is calm and comfortable like home. Its lobby and residence lounge are decorated in a hip style and highlight natural and strong colours. There are a small garden, a resting area and a pool table.

LOCATION

It is very convenient for guests to enjoy shopping and good meals nearby the residence. They can take a taxi, walk to Sukhumvit Road, or use the free shuttle tuk-tuk service from here to Thonglor BTS station.

CLEANLINESS

The room is clean, but the small garden behind the residence, especially that near the exit to J Avenue, is not spotless and requires better maintenance.

SERVICE QUALITY

The staff are friendly, helpful and can remember the names of their long-term guests. However, they were rather slow to process my check-in due to some coordination problems; check-out was fast and smooth, though.

FACILITIES

This residence boasts a lobby lounge, a swimming pool, a pool bar and a rooftop gym. Each unit has a balcony, a kitchen, a desk, cable and satellite TV, wifi connection, a washing machine and an iron. Large units also have a dining room and bathtubs.

F&B

Complimentary breakfast meets an acceptable standard with a American breakfast buffet line with coffee, tea and fruit juice. The only restaurant here 4Garcons is highly recommended for its tasty French dishes and fine wine.

SECURITY

The residence's public areas, lifts and basement parking lot are equipped with close-circuit television cameras. Several security guards are on duty and patrol the residence around the clock.

ENVIRONMENTAL & SOCIAL CONCERNS

Each apartment has a tag that asks guests to hang their towels they wish to continue using. It does not use centrally-controlled air conditioning but set a maximum limit for monthly guests to use electricity for free. Water in the pool is filled with artificial salt.
